

# CEGA

Canadian Energy Geoscience Association

Brenda Pearson first became involved in the CSPG on a volunteer basis in order to meet more people. The most fun way to do that, in her opinion, was to get involved in sporting events. Brenda played in the squash tournament, the hockey tournament, the mixed golf tournament and participated in the fun run. Brenda was invited to be part of the squash committee and from there it all started. After serving on the squash committee, she then served on the Mixed golf and Classic golf committees. Brenda also served on the Classic golf committee for a handful of years but have been part of the Mixed golf committee for more years than she can count. Brenda been fortunate to have worked alongside David Middleton since 2012 in Mixed Golf. She believes it has been a great way to meet people and be part of events where people can relax and have some fun.

Outside of industry, Brenda volunteer for Curling Alberta, Special Olympics, and various community events.

Brenda has enjoyed a fulfilling and challenging career with a variety of companies, both big and small. Now retired and taking advantage of every minute of it!
